

Body Mod: Free X Survival Kit Edition v0.5

General Notes:

- * By default this Supplement is a replacement for standard Body Mod, but it can be used as Supplement for any Jump, Gauntlet or Body Mod.
- * All options below can affect appearance and physical stats, but they are unable to give anything outside the "anime human" limits. (Yes, this is soft limits.)

Basic Options:

- * Gender - Choose whatever gender you want.
- * Build - Choose your build: "tiny" / "medium" / "big". Or anything in between.
- * Body Type - Choose your body type: "bones-and-skin" / "bystander" / "mildly-fit" / "athlete" / "muscle-mountain". Or anything in between.

Appearance Options:

- * Archetype - You can choose your new default appearance archetype, which should be described in two or three words. It will slightly alter your current appearance to match chosen archetype. Want to look like "otome-game knight"? Done! "Ahoge tomboy moe"? Just take it. "Huge breasts loli"?.. I don't judge.
- * Details - You can add to your appearance up to three additional cosmetic details. Face marks, sharp fangs, ahoge, etc.

Physical Stats:

(Nope. Just take some Perk with "physical peak human" in option below.)

Free X Survival Kit:

- * Slots - You have one "Perk Slot" and one "Item Slot", which can be filled with any "General Free" / "Free for All Origins" Perk and Item on your choice, from any Jump or Gauntlet documents. Selected Perk and Item are considered as part of the "Body Mod" and cannot be stolen or lost. "Slots" can be purchased multiple times for free; every purchase will give you two additional "Perk Slots" and one extra "Item Slot" each. Exploit responsibly.
